PROFILE

Full-stack developer and data analyst with hands-on experience in mobile app development, statistical modeling, and CRM systems management. Adept at building end-to-end solutions across React Native, Python, and C#, with a strong mathematical foundation and proven ability to deliver results in fast-paced, client-facing environments.

EDUCATION

Bulacan State University **Malolos, Bulacan**
B.S. Mathematics, Major in Computer Science *June 2026*

Relevant Coursework: Data Structures & Algorithms, Database Management, OOP, Software Engineering, Mobile App Development, Machine Learning, Mathematical Modeling

Marian College of Baliuag Inc. **Baliuag, Bulacan**
Senior High School — STEM *June 2022*

TECHNICAL SKILLS

Languages	C, C++, C#, Java, Python, TypeScript, Node.js, React Native, MATLAB
Frameworks / Tools	Unity, ARCore/ARKit, Supabase, Zustand, Git
Data & Analytics	R, Jamovi, MS Excel (advanced), GLM / Regression Modeling, Statistical Diagnostics
Design	Adobe Photoshop, Illustrator, Inkscape, Canva, $\LaTeX$
Other	CRM & Spreadsheet Systems, Discord Community Management, Hardware Assembly, Windows/Linux

EXPERIENCE

The Sales Space (Daniel Kuye) **Remote — United Kingdom**
Virtual Assistant (1-Month Contract) *March – April 2026*

- Managed daily Discord community operations for a high-ticket sales coaching program, maintaining student engagement, accountability tracking, and real-time support across multiple channels.
- Built and maintained CRM spreadsheets and student progress trackers; updated records throughout the day based on coaching team communications.
- Executed daily outbound DM campaigns to warm leads, maintaining fast, natural, and engaging conversations to support client pipeline.
- Coordinated directly with the Head Coach and team on task delegation, group call attendance tracking, and time-sensitive administrative requests.

TESDA Regional Training Center Central Luzon **Guiguinto, Bulacan**
Admin Office Intern *June – July 2025*

- Digitized and reorganized institutional filing systems; encoded financial and budget records in Excel for faster, more accurate retrieval.
- Co-authored employment outcome research on 95 Dressmaking NC II graduates using statistical analysis; presented findings to TESDA administration.
- Produced multimedia content (AVP highlights, newsletter layout, photo documentation) for institutional programs.

Non-Voice Call Center Agent **Hybrid — Bustos, Bulacan**
Customer Support *July 2022 – January 2023*

- Handled 200–300 daily tickets via chat/email with high resolution rate and QA scores; managed data entry and issue escalation accurately.

SELECTED PROJECTS

Nichi — AI-Powered Japanese Learning App *Dec 2025 – Mar 2026*
React Native, TypeScript, Gemini API, Supabase, Zustand

- Built a cross-platform mobile app with AI tutoring, speech-to-text pronunciation practice, and a gamified N5–N1 progress system with streaks and XP.

ARound BulSU — AR Campus Navigation App *Ongoing Thesis*
Unity, C#, ARCore/ARKit

- Developing a real-time AR navigation and evacuation app for BulSU (team of 5) using optimal pathfinding algorithms; leading UI/UX design for diverse users.

Climatic Factors & Dengue Incidence — Mathematical Modeling *2025*
R, Jamovi, Negative Binomial Regression

- Modeled dengue-climate relationships; identified relative humidity as the primary driver via VIF, AIC, BIC diagnostics. Presented to local health researchers.

Eli — 2D Platformer Game *2025*
Unity, C#, Krita

- Co-programmed a 2D platformer with movement, dash/glide mechanics, and interactive levels; designed original character sprites and level maps.

LEADERSHIP & ACTIVITIES

Every Nation Campus (ENC) **Baliuag, Bulacan**
Communications Team Lead — Media Ministry *Sept 2023 – Jan 2025*

- Led a media team for over a year; recruited and trained student volunteers in photography, design, and social media, while directing content strategy and branding.
