EDUCATION

Bulacan State University

Bachelor of Science in Mathematics, Major in Computer Science

Malolos, Bulacan

Expected June 2026

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Software Engineering, Computer Graphics, Mobile Application Development, Machine Learning, Mathematical Modeling

Marian College of Baliwag Inc.

Senior High School – Science, Technology, Engineering and Mathematics (STEM)

Baliuag, Bulacan

Graduated June 2022

TECHNICAL SKILLS

Programming Languages

C, C++, C#, Java, Python, React Native, TypeScript, Node.js, MATLAB

Mobile / Game Development

Unity, AR Development (ARCore / ARKit)

Design & Multimedia

Adobe Photoshop, Adobe Illustrator, Inkscape, Canva

Video Editing

CapCut, Filmora

Documentation

L^AT_EX, MS Office Suite (Word, Excel, PowerPoint, Access), Google Workspace

Other

Photography, Computer Hardware Assembly, System Diagnostics, OS Installation (Windows / Linux)

EXPERIENCE

TESDA Regional Training Center Central Luzon

Office of the Admin – Intern

Guiguinto, Bulacan

June 2025 – July 2025

- Produced AVP highlights and photo documentation for the Rebisco partnership program and Trainees' Week; designed layout for the RTCCL TESDA Newsletter and activity calendar labels.
- Managed digitization and organization of the "Red Book" filing system; encoded financial analyst records and budget officer files in MS Excel.
- Co-authored and presented a research study on employment outcomes of Dressmaking NC II graduates, contributing to methodology, data analysis, and conclusion drafting.
- Streamlined office operations by scanning institutional certificates, compiling attendance records, and organizing official request letters for efficient retrieval.

Non-Voice Call Center Agent

July 2022 – January 2023

- Processed and resolved customer inquiries via chat and email support, maintaining high resolution rate and quality assurance scores.
- Managed data entry and ticket documentation for 200–300 cases daily, ensuring accurate record-keeping and timely issue escalation.

Lazada / Shopee

Meycauayan City, Bulacan

- Sorted and packed 350–500 parcels daily to meet strict dispatch schedules for high-volume e-commerce orders.
- Conducted inventory checks and organized warehouse storage systems to optimize the picking process and ensure order accuracy.

Dishwashing Supply Store**Baliuag City, Bulacan***Sales Encoder*

- Encoded daily sales transactions and inventory logs into Microsoft Excel to ensure accurate financial reporting.
- Monitored stock levels and generated sales reports to assist management in restocking and inventory planning.

PROJECTS**LearnJ — AI-Powered Japanese Learning App***December 2025 – March 2026**React Native, TypeScript, Google Gemini API, Supabase, Zustand*

- Designed and developed a cross-platform mobile application for conversational Japanese learning, integrating the Google Gemini API for dynamic, context-aware AI tutoring.
- Implemented speech-to-text with fuzzy matching for pronunciation practice; architected full authentication flows using Supabase and state management with Zustand and AsyncStorage.
- Built a responsive, design-system-driven UI with custom theming, animations, and a gamified progress tracking system (N5–N1 vocabulary, streaks, and XP).

ARound BulSU: Smart AR Campus Navigation & Evacuation App*Ongoing (Thesis)**Unity, C#, ARCore / ARKit*

- Developing an AR mobile application (team of five) to provide real-time campus navigation and emergency evacuation routes for BulSU stakeholders.
- Implemented optimal pathfinding algorithms for accurate AR navigation; designed an accessible and intuitive UI/UX accommodating diverse users including students and faculty.

Influence of Climatic Factors on Dengue Incidence in Malolos City*2025**R, Jamovi, Generalized Linear Models*

- Co-authored a mathematical modeling study analyzing relationships between weather factors and local dengue cases; constructed Negative Binomial Regression models.
- Conducted statistical diagnostics (VIF, AIC, BIC), identifying relative humidity as the primary climatic driver of dengue incidence.

Eli — 2D Platformer Game*2025**Unity, C#, Krita*

- Served as Co-Programmer for a 2D platformer inspired by *Ori and the Will of the Wisps*; implemented core mechanics including 2D movement, dash/glide abilities, and interactive map levels.
- Designed original 2D character sprites and full level maps using Krita.

Optimizing Wi-Fi Network Connectivity in the CICT Building (BulSU)*2024 – 2025**Graph Theory, NetSpot, Wi-Fi Analyzer*

- Applied graph theory to model and analyze the university's wireless network infrastructure; mapped router nodes and gathered signal strength data via NetSpot.
- Proposed data-backed layout optimizations estimated to yield a 20–30% improvement in signal quality.

LEADERSHIP & VOLUNTEER ACTIVITIES

Every Nation Campus (ENC), Baliwag

Communications Team Lead, Media Ministry

September 2023 – January 2025

- Led and coordinated a media team for over a year, overseeing production of digital content, photography, and visual assets for weekly services and campus events.
- Recruited and trained student volunteers in photography, graphic design, and social media management, fostering a culture of excellence and creativity.
- Directed content strategy for official social media pages, ensuring consistent branding and timely information dissemination.

Community Outreach Volunteer

Various Locations

- Participated in community outreach initiatives, providing logistical support and manpower for resource distribution in local towns and partner campuses.
